

Fourteenth International Conference On

Interdisciplinary Social Sciences

Universidad Autónoma Metropolitana
Mexico City, Mexico
10–12 July 2019

Founded in 2006, the International Conference on Interdisciplinary Social Sciences examines the nature of disciplinary practices in the study of society and the interdisciplinary practices that arise in the context of “real world” applications of social research and theory. The Conference also investigates what constitutes “science” in a social context and the connections between the social and other sciences.

We invite proposals for paper presentations, workshops/ interactive sessions, posters/exhibits, colloquia, innovation showcases, virtual posters, or virtual lightning talks.

2019 Special Focus

Global flows, diversified realities
